AYER'S CHERRY PECTORAL

TOO MUCH STRESS CANNOT be laid upon the admonition to all persons affected by the insidious earlier stages of throat and lung diseases, that every hour of delay in the effective treatment of such maladies is dangerous and may be fatal. Employed promptly in the treatment of Colds, Coughs, Hoarseness, Sore Throat, Loss of Voice, and Influenza, AYER'S CHERRY PECTORAL prevents these disorders from becoming serious, and speedily restores to health those who are affected by them. Its good is not simply that of a palliative, but it is in the highest degree curative, and for Laryngitis, Bronchitis, Asthma, Quinsy, or Catarrh, no other remedy is so efficacious. It affords relief in Consumption, even in its most advanced stages, and is the most reliable domestic remedy in cases requiring immediate action, such as Croup and Whooping Cough.

Full directions accompany each bottle.

HORSFORD'S ACID PHOSPHATE,

A Scientific and Healthy
SUBSTITUTE FOR LEMONS OR LIMES.

Prepared according to the directions of Prof. E. N. HORSFORD,
of Cambridge, Mass.

A delicious LEMONADE can be made with **Horsford's Acid Phosphate**, by the use of sugar and water only, while to all persons who are accustomed to the use of Alcoholic stimulants, Horsford's Acid Phosphate is recommended in place of Lemons for the preparation of acidulated drinks.

JOHN P. WHEELER, M. D., Hudson, N. Y., says:

"I have used Horsford's Acid Phosphate with decided benefit in a case of innutrition of the brain, from abuse of alcohol."

M. H. HENRY, M. D., New York City, says:

"Horsford's Acid Phosphate possesses claims as a beverage beyond anything I know of in the form of medicine, and in nervous diseases I know of no preparation to equal it."

Horsford's Acid Phosphate most fully meets the want for a pleasant and agreeable Tonic. No danger can attend its use, for it is the same acid as is found in wheat and other cereals, and if more is taken into the system than is needed, it is expelled with the secretions of the body.

Horsford's Acid Phosphate being a liquid is convenient to use, while the small quantity needed to produce the requisite acidity in any beverage, makes it of very trifling cost to the consumer.

Retail price, 50 cents per bottle.

MALARIA.

THE alarming rapidity with which malaria has been spreading over the country has caused much talk and investigation. It is a malady which not even the most talented physicians are able to fathom. Its cause is in most cases attributable to local surroundings, impure water and marshy ground, but it often appears in places noted for being unusually healthy. Probably no disease has so baffled the investigation of the medical fraternity, and few diseases cause more misery. Malaria does not necessarily mean chills and fever, although these troubles sometimes accompany it, back ache, a tired, weary feeling, lack of energy, aches of all kinds and a sort of despairing misery are the sure indications of malaria. The standard remedy has been quinine, and yet all who have taken this drug know its disagreeable effects, and also are aware that it seldom if ever effects a permanent cure. What is wanted is a good health-giving medicine, which will strengthen and build up the system and permanently restore health.

Brown's Iron Bitters, manufactured by Brown Chemical Co., Balto., Md., is such a medicine, and is a sure antidote against malarial poison, fever and ague and other intermittent fevers. It will also cure without doubt Dyspepsia, Indigestion, Billiousness, Liver and Kidney complaints, enriches the blood, tones the nerves, and is especially valuable as a healing and restoring medicine for diseases peculiar to ladies.

HOOD'S PILLS CURE LIVER ILLS

Something from

GENERAL MASTER-WORKMAN

T. V. POWDERLY.

To whom it may concern:

I have known Dr. D. B. Hand personally and professionally for seventeen years. He is one of the leading and most successful physicians in Northeastern Pennsylvania. I take pleasure in saying that his "Remedies for Children" are exactly what they are represented to be. Throughout Northeastern Pennsylvania they are household necessities, and where they are once used they will be appreciated and kept for future use.

Very truly,
T. V. POWDERLY.

Dr. Hand's Remedies for Children are **COLIC CURE**. This instantly relieves a babe of accumulated wind in the stomach and bowels, quiets the nerves and gives peaceful sleep. Use it, mothers, in place of stupefying syrups, paregoric and cordials.

The baby is teething, its gums are feverish and swollen, its pitiful moans almost break your heart. An application of **DR. HAND'S TEETHING LOTION** to the gums gives it instant relief.

Suddenly, in the night, is heard the "once heard, never forgotten," cough and rattle of the croup. Help must be instantaneous. The effect of **DR. HAND'S COUGH AND CROUP MEDICINE** is prompt and satisfactory every time.

Your child becomes constipated; pills it cannot take, and castor oil is not only a horrid dose, but it leaves the bowels constipated. Give them **DR. HAND'S PLEASANT PHYSIC**, which leaves the bowels in an open, toned condition. These, with my other four remedies, **Diarrhoea Mixture, General Tonic, Chafing Powder, and Worm Elixir**, are household necessities.

SCRANTON, Pa., July 31, 1886.

We, the undersigned, residents of Scranton, Pa., are well acquainted with Dr. D. B. Hand, and know him to be one of our leading physicians. His "Remedies for Children" are just what he claims for them. They are household necessities in this section.

Hood's Pills.

The general tendency of Hood's Sarsaparilla is laxative, but in many cases it is not sufficiently so. And in response to numerous demands for some laxative preparation we have compounded Hood's Vegetable Pills, which are meeting with marked favor.

These Pills are mild yet efficient, do not cause pain, or gripe, and act with certainty upon the liver, removing all obstructions from the alimentary canal, and preventing all diseases arising from derangements of the liver and bowels. They are especially valuable as after-dinner Pills, and readily cure constipation and costiveness, nausea, distress in the stomach, etc. They are purely vegetable, and contain no calomel, mercury, or mineral substance of any kind.

Hood's Vegetable Pills are sold by druggists, or will be sent by mail on receipt of price—25 cents per box, five boxes one dollar. Prepared by

OVER.

HE WANTS IT

Because he likes it. It has made him a strong, healthy, rosy-cheeked boy. He was a delicate, sickly little fellow, thin and wasted. Nothing seemed to benefit him till the doctor prescribed Scott's Emulsion, when he began at once to improve, and soon became the rollicking, healthy boy, as seen in the picture.

Scott's Emulsion is the great remedy for children. The rapidity with which it puts flesh on their bones, imparts color to their cheeks, and gives them an appetite for food, is almost magical. **Mothers**, if your children are delicate and sickly, and you don't know what's the matter with them, try this most nourishing food and medicine.

For **Emaciation**, and all forms of wasting in adults as well as children, it is most beneficent in its results, giving flesh and strength, and fortifying and building up the system.

As a remedial agent for chronic coughs and consumption, especially in its early stages, it is most wonderful in its results, and with a proper regard of the laws of health, will positively cure.

It possesses just the constituents to enrich the blood, heal the irritation and soreness of the lungs, and build up the body.

Palatable as Milk.

CAUTION.—Scott's Emulsion is put up in salmon-colored wrappers. Be sure and get the genuine. Sold by all druggists.

THE SAILOR BOY.

This boy is as proud in catching this large fish as a man would be in conquering an empire. The great pleasures of life are in our achievements, in doing something that we think has surpassed our fellow men. One of the greatest achievements in medical science has been accomplished by the manufacturers of **SCOTT'S EMULSION**, in making this acknowledged remedy, Cod Liver Oil, palatable and easily digested, so that everybody, children as well as adults, can take it without the slightest trouble, whereas the ordinary cod liver oil is repulsive to everybody. **Scott's Emulsion of Cod Liver Oil and Hypophosphites**, the remedy so well known all over the world, is a most wonderful food medicine. Its power to check the wasting ravages of disease, and to build up and strengthen the body, is truly marvelous. For sickly, wasted children, for Anaemia and Emaciation in adults, and for Consumption in its various stages, it is really surprising in its results; and for colds and chronic coughs, it seems to outrival any other remedy. We desire to impress upon the minds of mothers the great importance of using Scott's Emulsion for their children when they are weak, sickly and run down, and where the ordinary food fails to nourish them; it will build them up with wonderful rapidity. Don't fail to try it.

DAY'S SOAP.

A wash can be done in one half the time usually consumed when using Soaps of a common character or those that simply supply enormous quantities of lather; but, you must follow the instructions that accompany each cake of this Soap, and if you cannot do this and are intent upon doing your wash in the old way, do not use Day's Soap. Improvement is the watch word of civilization, in nearly all that pertains to the Sciences and the Arts, and why not in this the most tiresome and laborious of household duties—washing. Please remember the clothes are not to be Boiled, Scalded or Rubbed Hard, thereby dispensing with the unpleasant odor arising from the use of a wash boiler, and the dragging or lifting of it in and about.

DAY & FRICK,
1754, 56, 58, 60 & 62 Howard St., Philad'a, Pa.

THE LITTLE TURK.

THE picture on the other side (taken from life) represents a little Turkish boy in Oriental costume. As will be seen, he is leaning on some boxes of **SCOTT'S EMULSION**, signifying the fact that it is a good thing to lean upon, and that it will support the young as well as the old. The inscriptions on the boxes in different languages indicate its wide-spread popularity. It is used in almost all the countries of the world, and is highly esteemed. By the ingenious process of its manufacture, the oil has been robbed of its terrors and made perfectly palatable; at the same time its potency has been materially increased; and, combined with the Hypophosphites, the great brain and nerve tonic and stimulant, a remedy has been produced that is simply marvelous in its results, astonishing alike both the physician and patient. Its power to check the waste of the system, and build up and strengthen the enfeebled body, has given it its world-wide fame. Sickly, delicate children grow fat and strong on this palatable food-medicine. It stops the racking cough of the **CONSUMPTIVE**, heals the irritation of throat and lungs, and in the early stages will **PERMANENTLY CURE** the disease, and in the latter stages at least give comfort and prolong life more than any other remedial agent. For **SCROFULA, ANÆMIA, EMACIATION** and all depraved conditions of the blood, it is a most effectual remedy. For ordinary Coughs and Colds, no pulmonary equals it, as it not only cures the cold, but builds up the system. Don't fail to try this most palatable and effectual remedy. For sale by all druggists.

STIMULATION WITHOUT INTOXICATION.

The boasted nourishing and strengthening properties of Lager Beer, Ale, Porter and other Malt Liquors, and even Malt Extracts, which are nothing but strong Lager Beer, reside solely in the alcohol they contain, which, while temporarily covering fatigue and distress, entails upon the devotees the dreaded consumption of the Kidneys and Liver. DIRECTIONS.

WASHING.—Dissolve one heaping tablespoonful of Borax in hot water for every tubful of clothes; soap all of the most soiled places, and rub on the board through one water; after rubbing throw the pieces into a tub containing boiling water and Borax; let them remain there while the second tub of clothes is being washed; rinse in one plain water; do not boil the clothes.

STARCHING.—One teaspoonful Borax to one pint boiling starch, adds greatly to the gloss, a fact not generally known.

TO PREVENT MOTHS.—Sprinkle floor with the powder before laying down the carpets, and put it with the clothes when packed away.

REMOVING COCK ROACHES.—Sprinkle floor, leaving places open for escape, or to kill them, add one part Borax to two parts powdered sugar.

ROUGH FACE OR CHAPPED HANDS.—One tablespoonful Pulverized Borax to one quart hot water apply night and morning with a soft sponge or cloth.

DRESSING Ulcers, Wounds, Bruises, Sprains, Chilblains and Removing Inflammation.—One tablespoonful Pulverized Borax to one pint hot water, saturate a piece of lint with same, hanging it up to dry, then use for a dressing.

FOR BATHING.—Always add Pulverized Borax to the Bath, it softens the water. Especially use it for infants and children.

ARRESTING FERMENTATION.—One-half tablespoonful Pulverized Borax to one quart cream or milk, will preserve them perfectly sweet.

CLEANING CLOTHES.—One tablespoonful to one pint of hot water, when cold, use instead of Ammonia or Benzine.
