J. C. BLAIR, PRINTER, HUNTINGDON, PA. No. 6809.

John A. Chapman,

**Bookseller and Stationer,**

Newberry, S. C., Feby 14 1883

Dear Albert

Yr telegram to hand stating that one cent per pound was little enough on the 16 B/c M E D & C T

This is rather heavier than expected but all right it will be deducted in next draft. this makes the 100 B/c lose me $25.00 Hope however you will give me an opportunity of making this up in some future transaction I mean square of course

Yours truly
R H Bomar

J. C. BLAIR, PRINTER, HUNTINGDON, PA. No. 6809.

John A. Chapman,

**Bookseller and Stationer,**

Newberry, S. C., Feby 1th 1883

Dear Albert

Yrs to hand in reply would mention that in order to keep an accurate check of the business I remit all recpts to Capt O'Neale at Columbia & he forwards this of course causes some delay but I have written requesting him to let them go to you as promptly as possible I am glad you intimate yr intention of giving me another order & I hope you may be able to use the 6lb Bales samples of which I have sent you

Yrs truly
R H Bomar

John A. Chapman,

Bookseller and Stationer,

Newberry, S. C., ............188

& have substituted a Planters lot which I am certain you cannot object to I mean the grade. Cotton has been slow to move from this point, some that I had shipped near a month ago only left here yesterday but we are getting more cars now & I hope to make better progress hereafter.

Will mail you the bill for balance Mid tomorrow & would request that you send Capt O'Neale a draft on N.Y. as formerly we can't stand the Exchange to Spartanburg 3/4 I will

J. C. BLAIR, PRINTER, HUNTINGDON, PA. No. 6809.

John A. Chapman,
**Bookseller and Stationer,**

Newberry, S. C., Feby 14 1883

Dear Albert

Yrs of the 13th inst has been forwarded to me & I at once wired you that any difference claimed by you on the 16 B/C McB & Co T would be allowed. I am shipping heavily all the time now & it is impossible to see every bale branded & they sometimes make mistake after I have graded the Cotton. Hope you may need more soon. The present depression gives you another opportunity.

Yrs truly R H Bomar

J. C. BLAIR, PRINTER, HUNTINGDON, PA. No. 6809.

Messrs Applegate & Hope
Dear Sirs

I called at Mr Duvales Yesterday and found that Mr D. had called Dr Van Mater to attend him He had nearly died from heart failure one night superinduced by anxiety and worriment on a/c of his wife, being taken away by designing neighbors & Conspirators. and Dr Van Mater had taken Lawyer Foster there who had adviced appointment of Guardianship at once, said it could be done in 48 hours. (Foster was in the house while I was there) Mr DuVale says he must have something done to prevent *his wifes* from being drugged

John A. Chapman,

**Bookseller and Stationer,**

Newberry, S. C., ..................188

deduct 1¢ per lbs on 16 B/C say 450 lbs to the bale this deduction added to the difference in excess of 8¾ charged you on this lot & the price paid the planter for his B/C which is 9⅛¢ brings me in for a loss on the 100 Bales about $60.00 I made nothing on the off cotton therefore you perceive that while this business has been exceedingly unsatisfactory to you it has been quite unprofitable to us

Yrs truly

Dear Sir:

Being desirous of securing a good representative in your town to push the sale of our product, by means of which substantial results are sure to accrue, we are prepared to offer big inducements to anyone having an established business or means at their command to actively push the sale of the White.

Should you not care to handle it yourself, we should esteem it a favor if you would kindly assist us by recommending someone, who, in your opinion, would be suitable to represent us.

In case of parties not being responsible, we should be pleased to be informed of their ability to furnish security in the event of opening a deal.

Awaiting your reply, and thanking you in advance for any favors you may be able to render us, we remain,

*New York,* Sept. 187 5

John S. Applegate Esq.
Red Bank
N. J.

DEAR SIR:

We have taken the liberty of shipping to you a copy of our *United States Law Directory*, without your order. We do so in the belief that you will be pleased with it, and will remit us the price, $6.50.

You will excuse us for taking this novel way of introducing our book when you know that the sale of it is limited to a particular class, and they, though numerous in the aggregate, are so scattered as to make it impossible to reach them by canvassers; and it is to your interest, as well as our own, that a large number be disposed of.

Taking this view of it, you will, we think, be willing to lend a helping hand. Should you not, however, please let us know *at once*, and we will reimburse you for what expense we may have caused you, and give orders as to what we want done with the book; but we must add that we can not continue you as our correspondent unless you are willing to aid us in the publication of this work. Should you not write us we will consider your silence as signifying your intention to keep it; for you must know it will be worthless to us if held any considerable length of time.

Respectfully,

J. B. Martindale

KAUKAUNA, WISCONSIN

A. W. Priest. President.
Appleton, Wisc.

May 20th, 1913.

TO THE HOLDERS OF BONDS OF THE
IDAHO OREGON LIGHT & POWER COMPANY:

Since my letter of the 17th instant to Trowbridge & Niver Co., copy of which has been sent you, I have had conferences with holders of upwards of a quarter of a million of Idaho-Oregon bonds.

We have arranged for a general meeting of the bondholders to be held at 10 A. M. Saturday morning, May 24th, in Room 215, Hotel La Salle, Chicago.

Conservative business principles call for a more thorough knowledge of the situation than has been given us, before surrendering a first mortgage bond for an inferior security, and I cannot see how any interest can be injured by ascertaining the facts before surrendering our bonds.

I suggest the importance of attending this meeting, so we may have a full and free discussion of the matter.

Yours very truly,

AW Priest

Cummer Manufacturing Co.
Cummer Patent Folding Crates.
Cadillac, Mich.

May 7, 07.

F. R. Jenninge,

Tidioute, Pa.

Dear Sir:

If your farmer customers keep hens they should have Humpty Dumpty Egg Crates in which to market their eggs.

These crates have grown steadily in favor since their introduction twelve years ago. They afford a neat profit to the dealer and are a great satisfaction to the user.

The leading wholesale grocers and wooden ware jobbers carry them in stock. The salesmen who call upon you regularly should be able to name you best price.

Try a dozen as a starter.

Truly yours,

Dic. HHC.

MILWAUKEE TRUST COMPANY AND FIDELITY TRUST COMPANY.

MILWAUKEE, WIS. April 18th, 1913.

TO THE BONDHOLDERS OF THE LA CROSSE WATER POWER COMPANY:

Under date of March 17th, 1913, the undersigned Committee sent you a letter asking that your Certificate of Deposit, issued by the First Trust & Savings Bank of Chicago, for your La Crosse bonds, be sent to FIRST SAVINGS & TRUST COMPANY, MILWAUKEE, WISCONSIN, to be exchanged for securities apportionable under the reorganization plan, as outlined in the Committee's report, dated December 20th, 1912. Up to this date same has not been received. Will you, therefore, kindly send in your Certificate of Deposit endorsed to First Savings & Trust Company, Milwaukee, Wisconsin, or in blank. By so doing you will save time for the Committee and enable it to wind up its affairs promptly.

Upon receipt of same by the FIRST SAVINGS & TRUST COMPANY, MILWAUKEE, WISCONSIN, properly endorsed, the securities as outlined in their letter under date of March 17th, 1913, will be forwarded to you.

Kindly give this matter your prompt attention, and oblige

Fred Vogel, Jr.
Frank O. Wetmore
Harrison B. Riley,
BONDHOLDERS PROTECTIVE COMMITTEE
OF LA CROSSE WATER POWER COMPANY.

Applegate & Hope,

Redbank, N.J.

Gentlemen:- Yours of the 12 th at hand in reply would say I would have answered your letter sooner but I was away from home and just returned. Inclosed find my check for $35,00 go ahead and collect the same at once. I do not see how they can take an ofset as I received Root & Dibbens note in the first placeand it went to protest then they gave me the note which you now hold with Mr Grant as inderser they have never disputed the $$$$ account in any way. Hopeing you can collect the same without any trouble, I remain.

Respectfully Yours.

John Coleman.

Dear Sir:

Under the direction of the United States Circuit Court, we are authorised to return to you policy # 90136, of the Fidelity Mutual Life Insurance Company, of Philadelphia, Pa., which has been carried [redacted] in connection with shares represented by certificate # 4227, which said association has been maintaining. Upon receipt of the enclosed authorization, we will send you by following mail the policy, and will advise the insurance company that hereafter all payments on such policy will be made by you direct with them. The amount of the premium is $ 5.03 payable quarterly, and the first payment is to be made immediately.

Yours truly,

J.W. Newbery
M. T. Bunt Receivers.

# NEW YORK LIFE INSURANCE COMPANY.

JOHN A. McCALL, PRESIDENT.

THE OLDEST AND LARGEST INTERNATIONAL LIFE INSURANCE COMPANY IN THE WORLD.

NEW YORK, September, 1902.

We have perfected a form of Investment Bond combining a savings bank investment with a life insurance policy expressly adapted to *members of your profession.*

Every conceivable advantage consistent with good business principles is granted in the policy, and at the end of the term of years, which you select, you receive in cash the money you have paid in and the earnings in addition.

There is absolutely no restriction as to time, place or manner of death. A loan is granted at **5** per cent. interest after second year. All of this is *guaranteed* by the New York Life Insurance Company, a financial institution with over **$290,000,000,** established over a half century ago, and doing business under the supervision of **82** governments of the world.

If you will fill out and return the slip at the bottom of this letter, we will send you an exact estimate on your particular case.

Respectfully,
GUILFORD C. BABCOCK,
*General Agency,*
1917 Park Row Building, New York.

Dear Sir:-

In reply to your inquiry of recent date we are enclosing herewith samples of our Regular Surety Non-Smut Duplicating sales slips, 3 3/8" by 5 1/8". These are the same style and size as were furnished you in February 1911. The prices are:

In 500 lots ----------$13.75
" 1000 " ---------- 25.00

We are also enclosing a sample of our Regular Folded Surety Duplicate sales slip and a sample of our SURETY DUPLICATE OPEN AT BOTTOM. These differ from the Regular Surety in that, both original and duplicate slips are printed on white paper; the original in black ink, the duplicate in red ink. The carbon back of the originals of these is the same as that of the Regular Surety Non-Smut mentioned above. There is no charge for numbering in red, nor is there any charge for printing an advertisement on the back of the duplicate of these. The prices are:

In 500 lots -----------$ 15.00
" 1000 " ----------- 27.50

We are also enclosing a price list of other supplies for the McCaskey Account Register System.

Our terms are three per cent for cash with order; two per cent for cash within ten days. Net thirty days. All prices F.O.B. Alli-

AMERICAN SEWER PIPE COMPANY

GENERAL OFFICE AKRON, OHIO

January 23, 1919

TO THE TRADE:

All former quotations on Sewer Pipe, Flue Liners, Fire Clay Stove Pipe, Wall Coping, etc., are this date withdrawn.

Enclosed you will find new schedule of discounts which become effective January 25th. The discounts named in schedule will apply F. O. B. factory, with freight allowed on carload shipments to your city or points taking the same rate of freight from Akron, Ohio.

Our terms to Dealers who maintain yards for retail business will be -- Thirty days, or 10% off net amount of bill, after all deductions have been made, if paid within fifteen days from date of invoice. Any War Tax or special assessment is to be paid by the customer.

Thanking you for your past favors and trusting that we may receive your inquiries when you are in the market, we remain,

Yours very truly,

Mr. Fred R. Jennings,

Tidioute, Pa.

Dear Sir:-

For prompt advices could probably hurry you some Red Ash Pea made from our celebrated Lykens Valley coal at $5.65 per gross ton mines. This coal is very high in heat units andlow in ash. It is exceptionally good value in Pea size, because it is free burning, holding fire unusually long on low draught and giving intense heat on direct draught.

Soliciting a trial order for the best attention possible, we remain

Yours very truly,

C L Thompson
Sales Agent.

July 14th, 1920.

Mr. Fred R. Jennings,
Tidioute, Pa.

Dear Sir:-

Replying to yours of the 12th inst., we have your order for one car of Grate on file for attention whenever an opportunity is presented to forward the order to the mines but it is hardly likely we will be able to supply you until after September 1st and price will be that current at time of shipment.

We can offer you no encouragement in regard to any Egg, Stove or Chestnut for the present but may be able to supply you with a car of Lykens Valley Red Ash Pea this month or next, for which our present price is $6.75 per G.T. f.o.b. mines.

Our allotment is so curtailed that the coal at our disposal will not permit us to furnish any more tonnage than we supplied to our regular customers last season.

Yours very truly,

C. L. Thompson
Sales Agent.

August 4, 1919.

Mr. F. R. Jennings,

Tidioute, Pa.

Dear Sir:-

We have yours of the 1st inst., requesting us to supply you with one car each Stove and Chestnut, which we would be glad to furnish but regret that on account of our reduced output we are oversold for an indefinite period, which will likely run until the close of navigation and we could only place your order on file without obligation, subject to price current at time of shipment and our ability to provide the coal. The only sizes we can offer for current shipment are Grate and Pea, if either would be of any help.

We wouldnot be understood as unwilling to supply you but do not wish to influence you to disregard any other offers presented.

Thanking you for your disposition to favor us and awaiting your later instructions, relative to Grate or Pea, we remain

Yours very truly,

C L Thompson
Sales Agent.

There are relatives of Johnson deceased residing at Red Bank, we have in our possession a letter written here to Mrs Johnson by one Susan Johnson.

H. D. FOLLETT. J. W. DUNCAN.

OFFICE OF **Follett & Duncan,**

ATTORNEYS AND COUNSELLORS AT LAW,

BANK BUILDING,

La Salle, Ill. May 2nd, 1871.

John S. Applegate, Esqr.
Red Bank, N. Jersey

Dear Sir,

On the 4th of April last Timothy P. Johnson died at your place. The facts surrounding the matter are these: he had lived at or about this place for a number of years prior to his going East; some 10 or 11 years ago he married a lady here and continued to live with her until some 3 years since, when he went to N. Jersey leaving his wife still here. They have corresponded continually, the intention being that she would go East as soon as she could put matters in shape for leaving. Word reached her of his last sickness and of the necessity of her going there, but before arrangements could be effected she heard of his death. He leaves some personal property at Red Banks:- One horse & wagon, 8 pigs and, among other things, two boats — and at Toms River, Ocean Co. N. J. he leaves five acres of land. They have had no children. We desire to ascertain whether any steps have yet been taken in the Surrogate Court, what the probable value of her share will be, and what, under the laws of New Jersey she will be entitled to — intending that whatever is to be done in the matter shall be done through you exclusively.

Hoping for an early reply, we are Yours respt'ly, Follett & Duncan

John S. Applegate & Son,
Red Bank, N. J.

Gentlemen:

Yours of the 6th of May concerning the case of Wilson against Borden received. I regret very much to say that it will be impossible for me to be a witness at the trail of the Borden suit on the I9th of this month. I have considerable work on my hands and besides there is a strike throughout Weschester County, which necessitates my constant presence and attention. This time of year is a very busy time for us and besides, you will remember, I told you at the office last March that I was figuring on a big contract and that if I was lucky enough to get it, I would not be able to help Mr. Borden in his case, if tried in May. Won't Wilson be willing to have his case tried some other time, as I want to help Mr. Borden, if I can, but I can't at this time. I know I could help him any time after August, for then work is slack.

Yours Respectfully,

Thomas Murphy

47 COFFEE STREET,

Greenville, S. C., Nov 20th 1891.

Clifton Manufg Co

Dear Sirs

Yours of 19th to hand and noted I dont think I will be able to sell any more bagties than I have on hand as thy trade has stoped all at once. I think that you ought to give me a rebate on the bag ties I have bought from you this season as I had to sell a large portion of it at 50 cts on acct of the thin bagcloth that was in it. & besides J H Morgan & Bro & John Slattery bought of Pelzer, better bag ties than I bought of you for forty cents delivered in Greenville which is 25 per cheaper than I bought so you see the disadvantage I have had to labor under. of Course I bought the bag at 50 cents and will pay for it at that price, but it seems that you could compete with Pelzer. Please dont draw

47 COFFEE STREET.

Greenville, S.C. Aug 12th 1891

Clifton Manfg Co

Dear Sirs

Yours of 10th to hand and noted. Mr John Slattery & J H Morgan & Bro of this city have bought the Plzer bag & ties which is the best that comes to our market as it has no thin bagging in it nor bagcloth. and is well patched, and they are going to retail it at Sixty (60) cents per pattern and I dont want to sell for five cents per pattern profit. However if You will sell me two thousand (2000) patterns at fifty cents per pattern delivered I will take it. this will only give me 10 cents profit which is small. I dont think I have ever tried to get You down in price before, but I will be compelled to sell as cheap as the above named parties. let me hear from You at once. also quote me Spliced ties and whale delivered if You have any

Yours Respectfully R C Foster

Gentlemen:

We are certainly sorry that we have not heard from you in regard to the sample of the #E5 pen that we sent. We felt that this was an exceptionally fine number and hoped you would have a place in your 1947 line for this pen.

Since sending you the #E5 pen, however, we have developed another pen which is known as our #M1. Inclosed you will find a sample of this pen, which will cost you $72.00 per gross. We feel sure that after inspecting this pen you will agree with us when we state that this is the finest pen on the market today for the money. It is a near duplicate of pens selling from $ 7.50 to $ 15.00 each.

We look forward with pleasure to receiving your order for these new numbers.

Yours very truly,

H P Collier

Red Bank, N. J.

Dear Sir:

Replying to your favor of the 6th, our letter of the 4th was intended for J. S. Applegate, a farmer who lives on Riverside Ave. Red Bank.

If Mr. Soper delivered this nursery stock to you, he has done a most stupid thing, as we sent him the original order that he might locate the purchaser. If Mr. Soper had advised us that he had delivered the stock to John S. Applegate, attorney, we would have notified him very promptly that he had made a mistake.

Regretting the annoyance that this must have caused you, we remain,

Respectfully yours,

R. G. Chase & Co.

Is there any
casinghead gas
on your lease?

Dear Sir:

Just because they had only 3,500 to 10,000 cubic feet of casinghead gas daily, many operators believed that they could not profitably produce gasoline.

Even if the gas on your lease is only moderately rich, even if the quantity is small, it may pay you to find out if you cannot secure a good profit with the Tillinghast Combination Vacuum Pump and Gas Compressor.

On leases where more complicated or expensive equipment could never pay, this new combination outfit is bringing a substantial return. It is moderate in price, economical to operate, and secures all the gasoline that your gas can be made to yield.

With this Tillinghast outfit, and the blue prints and instructions which we furnish, any practical lease man can readily install his own gasoline producing plant.

If you will mail the enclosed post card to-day, I will promptly send you prices and any special information you may wish.

Very truly yours,

B.D. Tillinghast

DOLD-QUALITY HIGH PROTEIN FOODS
Grow Vigorous Animals.

We wish to inform you that we are manufacturers of Prime Packing House ANIMAL AND POULTRY FEEDS. These products are extensively used by Poultry and Duck raisers, also Hog Feeders.

We might state that our Animal and Poultry Feeds are made from Live Animal Product, which is freshly handled through the process of cooking and drying, thereby enabling us by our modern process to produce a strictly Sweet, Edible Product, something far different from the products made by rendering establishments. Their raw product is obtained from dead horses, cattle, sheep and hogs, which are taken from stock yards, stock cars and stables. Our claim is that the raw product must be sweet in order to produce palatable Meat Food; therefore, because we handle our raw product before it has a chance to decompose, and manufacture it according to modern methods, we claim Dold Quality Animal and Poultry Foods to be the best that can be made.

For over fifty (50) years Dold-Quality Products have proven their reliability and have gained a national reputation for superi merit.

We want you to become interested in helping us distribute ou Animal and Poultry Foods, and desire to arrange to have you sell our goods in your neighborhood.

We are advertising our products in Poultry Magazines, also have displayed at the principal State and County Fairs throughout thi Empire State, and believe that most of the poultry raisers are famili with our line, all of which helps a live dealer to distribute the goo in his section. We will also protect the dealer in case any orders a obtained in his territory. We enclose booklet showing what we handle, and would like to have you write us if you would care to take on our line. We can assure you of reasonable prices consistent with quality all of which will prove to be money-makers for you.

Start now to sell Dold-Quality ANIMAL AND POULTRY FOODS. Get the extra profit. Send the enclosed postal. If interested-get i off today.

Yours respectfully,
JACOB DOLD PACKING COMPANY,

DEPARTMENT OF AGRICULTURE
COOPERATING

FARMERS' COOPERATIVE
DEMONSTRATION WORK

Virginia-Carolina Farms Co.,
Chicago, Illinois.

Goldsboro, N. C., January 21, 1918.

Gentlemen:—

Pursuant to your request, I have made a thorough investigation of the Soil, Climatic, Crop, Market, Transportation and Health conditions of your CORE SOUND FARM land and submit herewith a brief report based upon my personal knowledge and information gathered from successful local farmers and reports of the U. S. Coast and Geodetic Survey and the U. S. Weather Bureau.

This wonderfully fertile tract of level, open prairie land lies midway between New York City and Jacksonville, Florida, north and east of the twin cities of Beaufort and Morehead City, N. C. It is approximately 12 miles in length east and west by from 3 to 6 miles wide and has an elevation of from 8 to 14 feet above high tide, which is ample to insure perfect drainage under all conditions.

As Agronomist in soils, I have been identified with the Federal and State Departments of Agriculture for some time in soil survey work on and along the Coastal Plains, and was born and reared on a farm in this State, and am therefore familiar with soil and crop conditions of Eastern North Carolina and adjacent states.

This surface soil is the most excellent type of black muck I have ever seen. It is composed of the decayed vegetable growth of centuries and the ashes left from the prairie fires which have frequently swept over this open plateau. These frequent burnings have hastened and completed the decomposition of vegetable matter and left a quantity of potash to further enrich the soil. This vegetable mould is from 3 to 9 feet thick, overlying a firm, sandy clay to clay subsoil. Better conditions for crop growth and lasting productiveness cannot be found.

An application of pulverized lime, shell marl or ground oyster shells, all of which are available at small cost, will probably further improve the yield, especially of such crops as Alfalfa, Clover and other legumes. Under such soil and climatic conditions, Corn should yield 100 bushels; Cotton 1½ bales; Potatoes 200 bushels; Sweet Potatoes 300 bushels; Soy Beans 40 bushels; Alfalfa 6 tons; Timothy and Clover 2 tons; Peanuts 40 bushels, to the acre. Other standard crops and garden truck in proportion.

The climatic conditions will be a pleasant surprise to those not familiar with this particular section of Eastern North Carolina. This is the only point on the Atlantic Coast where the warm waters of the Gulf Stream touch shore after leaving Southern Florida. These tropical waters give CORE SOUND FARMS a winter climate almost identical with that of Jacksonville, Mobile, New Orleans and other points 500 miles south. In the Summer months the temperature is modified and stabilized by the breezes passing over the large bodies of salt water surrounding the Peninsula. The result is a remarkably mild and equable climate both Summer and Winter.

In the Summer months the thermometer rarely goes above 90 and the highest of record is 98. With the ever-present gentle sea breeze, it is always cool in the shade, and the nights are delightfully pleasant and refreshing. The average low in Winter is from 25 to 28 above zero. There is never enough frost to interfere with land cultivation. It is common practice to set Cabbage plants in December and to plant early white Potatoes any time from December to February. The average temperature for the four seasons, according to the official reports of the U. S. Weather Bureau, being as follows:

Spring, 60 degrees; Summer, 78 degrees; Autumn, 66 degrees; Winter, 47 degrees.

*The* **TAYLOR-REED SALES CORPORATION**

GLENBROOK, CONNECTICUT

DEAR CUSTOMER:

We are very happy to announce that the HORLICKS CORPORATION of Racine, Wisconsin has appointed us to handle the marketing of all HORLICKS products in the United States. We are very proud to represent the Horlicks Corporation which -- for better than 70 years -- has turned out products of high and unvarying quality.

We absorbed into our own organization all of the HORLICKS salesmen, and are glad to have them help us give to you the very best service we know how to render. We can assure you that your needs will be promptly met, and we will cooperate in every way to help you sell more HORLICKS products.

The National Sales Manager of our Drug Division, which handles HORLICKS products, is Mr. E. E. Taylor. Mr. Taylor is assisted by Mr. John P. Beresford, formerly of Sterling Drug, Inc. Their headquarters are here in Glenbrook. W. E. White Sales Company. has charge of Drug Department Sales in your territory and one of their representatives will call on you very soon.

Effective immediately all orders should be sent to W. E. White Sales Company, 228 West 4th Street, Kansas City 6, Missouri.

We have two plants -- one in Glenbrook, Connecticut, and the other in Kokomo, Indiana. If you find yourself in the vicinity of either place I hope you will stop in and pay us a visit.

With best wishes, I am

Very truly yours,

THE TAYLOR-REED SALES CORPORATION

Trowbridge & Niver Co.
(INCORPORATED)
MUNICIPAL BONDS
CHICAGO — BOSTON
I. S. MABEE,
AGENT

Williamsport, Pa., Jan. 14, 1907.

Mr. F. R. Jennings,
Tidioute, Pa.

Dear Mr. Jennings:

I was just wondering whether you cared to sell your Louisville & Northern traction stock. I am open for a little speculation along that line; and, while there is no market for it, yet I believe that, in years to come, it will be worth something.

You have two kinds of stock, I think, common stock and class "B" preferred. I do not care to make you an offer on the preferred "B", because you probably already esteem it highly; but I will pay 10¢ on the dollar for common.

This is a personal offer from the writer , and has nothing to do with the firm of Trowbridge & Niver Company. As a matter of fact, they are not buying at all and have no desire to buy. Neither do I know of any market for it.

You received $250 of common stock with each $1000 bond. If you care to sell this to me at 10¢ on the dollar, it would reduce the cost of your bonds to you 2½ points, and still leave you the preferred "B". I think, if you care to hold it for a few years, that it will be worth more than this; but, in case you care to sell it, I am willing to take it at the above price.

With kind regards, I remain,

Yours very truly,

I Mabee

**High Grade Pianos, Organs, and Musical Merchandise**

THE CHEAPEST PLACE ON EARTH TO BUY THEM.

SUGAR GROVE, PA., 10/31/13 19

Mr G.C.Courson,
Tidioute, Penna,
Dear Sir:-

In reply to your letter of the 30th inquiring for price on the horses will say that I will take $500. for the team, they are well worth $600. because they are more than an ordinary team such as you might think they was. you have three teams in one. for example if you wish to haul loads they are quiet and strong. lay down the lines and they never offer to start, soon as the lines are picked up they are ready for business.

If you wish to make quick time simply chirp to them and the speed will be governed by the pressure given on the lines, they are full of ambition and ready to go as fast as you wish to let them if you show them you want them to go. Again if you wish them to show off a little simply chirp to them and hold in a little on the lines, they know what is ~~wa~~ wanted of them and they will put their heads high , curve the neck and diddle and dance , doing it without prssure on the bit, speak whoa to them and they will walk steady as before. they certainly are the best and most agreeable drivers in the country, very handsome in appearance, get up in good shape and while hitched to the buggy will drive all day and come home with their heads up and up in good style.

They are sorrel with golden main and tail and when you want a team for endurance, or to make quick trips, or a stylish driving team for the City, or to haul loads with, or to do any kind of farm work, they are the team you want. single or double, words will not discribe this team , they must be seen and drove to realize their value.

If you would like to see the team I will meet you in Youngsville any time when you can come except next week I have promised to take a piano to Findleys Lake a trip of about thirty miles from here and while there have quite a number of prospects to see so will stay most if not all of the week. expect to go Tuesday after voting, will take the team as I do all my piano work with them. if you would like to see the team I could put off the trip one day and meet you Tuesday. but our mail comes once a day leaving Youngsville after the ~~m~~ morning car at about nine oclock, be sure and get your letter in so it will get to Youngsville Monday by 9 or it will not get to Sugar Grove until Tuesday noon.

Hoping to hear from you by return mail, and urging you to at least see the team before buying because I know you can make $100. on the team by spring.

Very Truly Yours,

John Phelps.

CITIZENS TRUST COMPANY BUILDING
CLARION, PA.

January 15 1920.

H. J. Jennings,
Tidioute, Pa.

Dear Sir:-

QUOTATIONS NOT BINDING UNTIL ORDERS ARE ACCEPTED IN WRITING BY THIS OFFICE, AND SUBJECT TO CHANGE WITHOUT NOTICE. ORDERS ACCEPTED SUBJECT TO STRIKES, CAR SUPPLY, INTERRUPTIONS TO MINING, OR ANY CAUSES BEYOND OUR CONTROL. FREIGHT RATES BASED UPON BEST INFORMATION AT HAND, BUT NOT GUARANTEED. INITIAL RAILROAD WEIGHTS TO GOVERN ALL SETTLEMENTS.

Your name has been handed to us as being a good reliable coal dealer, by Mr. C.A.Immel, who is the engineer in charge of Hamler mine, whose output we handle, and he thinks that the coal from this mine would interest you, as it is very good quality, and he thought you might prefer to buy from a jobber near home, and right on the ground, where we can depend on our supply at all times, and our price would be the same as Buffalo- $3.10 F.O.B. mine, net ton.

We enclose an analysis of this coal, which you see is high quality. It is mine run, but is good and lumpy, and some jobbers handle it as 3/4 Lump, but it is not screened. However we have had very good success where it has been sold for local fuel consumption. Also it is very superior steam coal, and is a good all round coal.

We would like to ship you a sample car at this price, and if you like it can assure you of a good dependable supply, as we willtake ggod care of our customers, our aim being to build up a good steady trade on this coal.

Trusting that we may have the pleasure of hearing from you, we remain,

Very truly yours,

Cherry Trading Co.,

S. J. Sloan

Mr. F. R. Jennings,
Tidioute, Pa.

Dear Sir:-

We enclose invoice for 50 baskets of grapes shipped you today which we hope will reach you and be entirely satisfactory. Our buyer has just returned from New York where he bought a big line of holiday goods. We offer you Almeria grapes, as to weight, condition and quality, at 4.50, 5.00, 5.50 and 6.00 per barrel. There are a good many cheap grapes on the market, but we bought only sound fancy stock which will be very good to hold.

We have a car late cranberries due today, which we are quoting at 9.00 to 9.50 per barrel according to variety. Also have a car of fancy California walnuts due this wee selling at 17¢ per pound. Grape fruit are simply fine this year and can give you almost any size at 3.75 per box. We have a complete line of all kinds of figs, dates, mixed nuts, Almonds, Brazils, Peacans, etc.

If you will tell us what you want in this line, we will fix you up with fine quality and put the prices down right. We have a car of nice Danish cabbage which we will unload about Friday or Saturday and we offer same in ton lots at 13.00 per ton. We can furnish you almost any kind of winter apples from our Union City store at 1.50 per barrel. Any time you are in the market for goods in our line, get in touch with us, and we will try and treat you right.

Yours respectfully

Dear Sir:-

Here is a little folder with an idea in it. It is not advertising--forty retail papers printed it as news.

You'll find it interesting. It deals with the live question of figuring profits.

On the back cover you will find an offer of a free copy of the little 36 page book called "The Right Way to Figure Profits."

Just O. K. the attached card.

Yours very truly,

Wm. Earl Leckey

WEL-CNY

Manager System Service.

*James Lake Irrigation Company*
*Williamsport, Pa.*

April 21, 1913

Mr. Fred R. Jennings,
Tidioute, Pa.

Dear sir:-

The Bondholders' Protective Committee of the James Lake Irrigation Company, who are also representing your Laramie Valley Irrigation District bonds, beg leave to report that they have placed men on the system at Laramie, who are now storing water in the reservoir. There was carried over from last year sufficient water for this year, but we think it wise to take advantage of this spring's floods as an insurance for 1914. There is little that can be done at present towards making collections from the settlers, but we will be in Laramie in the near future, and upon our return will be able to give you a full report as to conditions.

Our attention has recently been called to a letter sent out by Mr. Speer, casting suspicion on the James Lake Committee, hinting at possible litigation between them and the District Committee, and suggesting that in such a case the Laramie Valley bondholders would be left unprotected.

Let us assure you that there is no possibility of such litigation, except in the imagination of Mr. Speer. If conditions arise making it inconsistent for us to represent the interests of both groups of bondholders, we shall at once frankly state the same to you and return your coupons. We are using every endeavor in this case to prevent a waste of this estate in the employment of attorneys and useless litigation. Our records will disclose that we have done this in the case of the James Lake Company, avoiding a receivership and the expenses thereof, and shall do the same in the Laramie Valley.

A personal inspection will convince you that the main thing to do at the present time is to help to develop the country, by securing settlers to take the places of those who have left and persuading those who are there to go on with their payments; and, until this is accomplished, you can expect no returns on your bonds. The Committee could pledge the coupons or bonds, borrow money, and run up a big expense for the bondholders, but we do not intend anything of that kind. If it becomes manifest that such a course is wiser than the one we have outlined, we will submit it to the bondholders for their approval, before taking final action. We do not believe that the Chicago Committee will endorse some of the statements made by Mr. Speer in the letters referred to, and that they too will be found following the above course.

Any information we can give you at any time, we will gladly furnish upon request; and, in the meantime, you may rest assured that your interests are being looked after to the best of our ability.

Yours very truly,
BONDHOLDERS' PROTECTIVE COMMITTEE,
By I. S. Maber Secty.

WARREN EVENING MIRROR WARREN WEEKLY MIRROR

PUBLISHERS AND PRINTERS

WARREN, PA.,

June 1, 1918

Dear Friend:

Due to circumstances that were beyond the control of the management of the Tidioute News, that paper will not be issued during the war, at least.

Undoubtedly your interest in Tidioute items and doings will remain as keen as ever. And, unless some other medium takes the place of the News, you would feel a loss analogous to the passing of a friend.

To fill the gap, therefore, the Warren Evening Mirror has appointed a capable correspondent in Tidioute who will cover all news as thoroughly as it could be done by a local paper. We trust that the Evening Mirror will serve your needs.

But, in order to make you acquanted with the quality of its services, I am going to subscribe for the Evening Mirror in your name for three months. I shall pay the Mirror Publishing Company the amount of your subscription and you can read the paper, and enjoy it, until September 1, 1918, absolutely free of charge. At that time, unless you care for the paper longer, it will be discontinued.

For your convenience I am sending you a postal card which you can return to me, signifying your desire to accept my offer.

Yours very truly,

W. A. Clinger

January 2, 1919.

TO THE TRADE:

During the past three weeks Corn has advanced 15¢ per bushel ($5.50 per ton). Mill Feeds have reached new high levels - never before have Bran and Midds reached the prices at which they are being quoted today. Most of the concentrates are difficult to secure and those offered are being quoted at extremely high prices. While practically all grain and grain products have advanced from $5.00 to $20.00 per ton during the past two or three weeks, we have only advanced SCHUMACHER FEED $2.00 per ton during the same period. "SCHUMACHER" is the feed today for the dealer and the feeder - it's variety of ingredients and excellent balance makes it invaluable to the owners of all farm stock. Big "Q" Dairy Ration fed alone to dairy cows or better yet fed with "SCHUMACHER", supplies the protein and forces maximum milk flow. Zero weather is in early prospect - your feeders are going to want feed and want it quickly. We urge you to order liberal supplies "SCHUMACHER" and Big "Q". If you have those feeds in stock you can properly take care of your trade even if you have no other feed or grain in your house.

We quote you as follows in assorted cars delivered rate points shown. Prompt to thirty day shipment, subject traffic conditions - prices subject your immediate acceptance and our confirmation.

Red Bank, N.J.

Gentlemen:

As you have been recommended to us by the First National Bank of Red Bank, we are desirous of arranging with you for representation of our Agency in your city and herewith submit an application, which if satisfactory, please sign and return to us at once, so that we can have this change appear in our next monthly supplement, which we are now preparing for the press.

Yours truly,

Early's Mercantile Agency

### $90,096.26
### CITY OF LAWTON, OKLAHOMA
### Improvement 6's

Dated April 15th, 1912. Principal and annual interest (September 15th) payable at Oklahoma Fiscal Agency in the City of New York. Denominations, $500 and $455.14. Maturing as follows:

| | | | |
|---|---|---|---|
| $ 455.14 | September 15, 1913 | $ 5455.14 | September 15, 1917 |
| $ 2955.14 | September 15, 1914 | $15955.14 | September 15, 1918 |
| $ 3455.14 | September 15, 1915 | $15955.I4 | September 15, 1919 |
| $15955.14 | September 15, 1916 | $15955.14 | September 15, 1920 |
| $13,955.14 | September 15, 1921 | | |

The proceeds of these bonds are being used to pay the cost of paving with asphalt 44 blocks of the principal business and residence streets of the City of Lawton. These streets are located in the heart of the city, and the abutting property upon which the bonds constitute a prior tax lien, is practically all improved with substantial public, business and residential buildings.

LAWTON, the county seat of Comanche County, is situated in the southwestern part of the state and is served by two lines of the Rock Island and the Frisco Railway systems. It was originally laid out by the U. S. Government, and has been built up largely under Government supervision. The Government has provided over 35 miles of water mains, 4 handsome public school buildings, the original sewer system, $60,000 Court House and Jail, and several other fine public buildings, without expense to the city. Located near the city is Ft. Sill, upon which the Government has recently spent several million dollars in construction of new buildings. It is planned to make this one of the largest military posts in the country with an ultimate expenditure of $20,000,000, and accommodations for 40,000 troops. This is also the headquarters of the Government's Indian interests in this section, the annual Indian disbursements amounting to from $300,000 to $500,000.

LAWTON is surrounded by a fertile and rapidly developing agricultural section, and its commercial interests are diversified. It has one of the finest municipally owned water supply systems in the state, large flour and cotton mills, cotton gins and compresses, wholesale and jobbing houses, six banks with combined resources of over $2,000,000, State Agricultural College and Government Indian College. The assessed valuation of the city for the year 1911 was $7,560,045, and its present population is over 10,000.

The legality of these bonds has been approved by Messrs. Dillon, Thompson and Clay of New York.

PRICE OF ANY MATURITY TO YIELD 5-3/4% PER ANNUM.

Chicago, March 20, 1907.

Judge Applegate,
Red Bank, N. J.

My dear Brother:

On February 6th we sent you a letter concerning a contribution for the work of the Baptist Young People's Union of America. Not having heard from you, we presume this matter has been laid aside for consideration. Let me call attention to the plan we have for the support of this work among our young people. We require $10,000 a year to conduct the educational work of the organization and to carry on the large field work we are seeking to do. We are asking for two thousand sustaining members at $5.00 or more annually, it being understood that no person is bound to a second year unless they wish to continue. I would be very glad to have an early and favorable reply from you in order that we may have our books in a satisfactory condition at the close of our fiscal year on the last day of May.

I remain yours very truly,

Geo. T. Webb

The results that you will secure from your cows during the next six to twelve months depend on your keeping your cows in the best of condition during the pasturage period so that a shrinkage in milk flow is prevented. Thousands of dairymen allow their profits to dwindle rapidly by their failure to feed Schumacher Feed in connection with pasturage.

The necessity of re-inforcing pasturage is recognized by all authorities on the feeding of dairy cattle. The following quotation, from circular No. 44 of the Missouri Agricultural Experiment Station, very clearly indicates the immense losses resulting from not feeding a ground feed, and the big advantage in doing so.

> "When hot weather and short pastures come, the flow drops one-half or two-thirds, and the cows are almost dry at the beginning of winter. It is almost impossible to restore the flow of milk to the original amount after it is once allowed to run down from lack of feed. To make large returns from the cow a large yearly production must be had and to do this the flow of milk must be kept up ten or eleven months in the year."

If you are not already using Schumacher Feed we urge that you do so at once and prevent a shrinkage in the milk flow of your cows. It insures greater milk yields, hence bigger profits during the next six to twelve months.

Even when grass is abundant it is advisable to feed a good ground feed, if the largest milk yields are to be obtained. It is therefore especially important that Schumacher Feed reinforce pasturage when short and dry. The same bulletin referred to above makes the following statement on this subject:

> "The necessity of feeding grain to the high producing cow arises from the fact that she cannot secure the sufficient amount of nutrients from the grass alone and must have some concentrated feed in the form of grain in order to continue to produce large quantities of milk."

That Schumacher Feed is the leading ground feed on the market, is admitted by thousands of the country's most successful dairymen through their continued use of it. It is demonstrated by the fact that most of the present world's records for the largest yields of milk and butter have been made by cows receiving Schumacher Feed.

8

October 7, 1918.

Gentlemen:

In an effort to reduce to a minimum the number of statistical inquiries addressed by governmental organizations to producers of natural-gas gasoline during the war, the United States Geological Survey has united with the Oil Division of the United States Fuel Administration in its quest for such of the data indicated on the accompanying form as involve statistics of gasoline production.

A separate report is desired for each gasoline plant operated by your company, and if the number of forms inclosed is insufficient please apply to the Bureau of Engineering, Oil Division, United States Fuel Administration, by return mail for the number of forms you need to make a complete report of your operations.

As the statistics of gasoline production furnished on this form and supplemented later by statistics for the last four months of the year will be used by the Geological Survey in preparing its report on the natural-gas gasoline industry in 1918 in lieu of statistics of the type requested in other years, your full compliance with this joint request will avoid the duplication of effort and the diversity of results that both the Government and the natural-gas gasoline industry seek to avoid in these strenuous times.

Very truly yours,

Geo. Otis Smith

Director.

January 2, 1918.

Dear Sir:

Blank forms are enclosed herewith asking for a statement of your natural-gas gasoline production during 1917 by counties. Please retain, if you wish, a duplicate set for your own records and return one set, filled out, at your earliest convenience in the accompanying envelope, which requires no postage.

Please answer every question that pertains to your operations. If you cannot give exact figures in answer to every question, please make the replies as nearly accurate as possible.

This information is desired for incorporation in the official report "Mineral Resources of the United States, 1917," and also for special information for the War Industries Board. As heretofore, replies will be held confidential, totals being published for those States only in which there are three or more producers, unless permission to publish is given by the companies concerned.

Please DO YOUR BIT by replying promptly to this FIRST request, in order that the completed figures may be available for use by the War Industries Board at the earliest possible moment.

Yours very truly,

Geo. Otis Smith

*UNITED STATES FOOD ADMINISTRATION LICENSE NUMBER G. 10169*

**A. E. Staley Manufacturing Company**

**CORN PRODUCTS**

**Baltimore, Md.**

April 30, 1919.

*To the Stockholders of the A. E. Staley Manufacturing Company:*

The reasons for asking our stockholders to authorize and approve a bond issue of $2,000,000 are that we may be placed in position to construct a Glucose, Corn Syrup, Corn Sugar and Dextrine plants, so that we may be able to diversify our product by converting the Starch into Glucose, the Glucose into Corn or Table Syrup, or into Corn Sugars, or the Starch directly into Dextrines and Gums, and by so doing we can always manufacture the products that are most seasonable and in greatest demand, and also be able to push the sales hardest of the products showing the greatest profit. This will insure a continuous, steady, operation of our plant and allow us to make a constant profit under any and all trade conditions, without the periodical shut-downs which we have recently encountered because of not being able to manufacture more than the one product of Starch.

During the past five months our factory, as an exclusively Starch Plant, has either been operating and placing the Starch in storage at great expense, or closed down and idle, with overhead expenses continuing, while the Starch Manufacturers who were able to convert their Starch into Glucose or Corn Syrup, have been operating continuously and making large profits, and in order to equip our plant and place our Company in an equally favorable position, we find it absolutely necessary to make these additions and extensions to our present plant, making our Company equally competitive by diversifying its product and manufacturing and selling the same products that our competitors make.

The only plant in this whole industry that has ever operated continuously, without having shut-down periods, has been the Argo Plant of the Corn Products Refining Company, Argo, Illinois, and it is the only plant whose products are diversified, while all other plants, who manufactured either exclusively Starch, or exclusively Glucose, have always had to contend with seasonal business, and therefore have suffered the expense of shut-down periods and consequent loss of operations and profits.

To give you an idea of the increased consumption of Corn Syrup. Prior to the war the Corn Products Refining Company sold about 60,000,000 lbs. of Corn Syrup annually. This last year their sales increased to approximately 480,000,000 lbs. Glucose has also proportionately increased. Statistical records show that the consumption of candy in all dry territory has increased from 300-to-400%, and Glucose is the principal ingredient used in the manufacture of the greater majority of candy, and inasmuch as this entire country will soon be on a strictly dry or prohibition basis, the consumption of candy will still further increase and make it necessary to manufacture more Glucose. If our Company is to meet with the success it deserves and merits it will be necessary for us to make these additions and improvements to our plant, and manufacture the products that are in greatest demand, most easily marketed, and show the greatest profits.

Our Company during the past three years has been able to finance building improvements and extensions to our plant from net profits, but from now on this will be impossible because of the large Income and Excess Profit Taxes that we must pay to our Government for the purpose of financing the cost of our recent war, which necessitates our finding other methods of financing. The proposed bond issue which we are asking our stockholders to authorize and approve seems the most feasible method to adopt. The Trust Deed will provide that every dollar received from the sale of the bonds must be expended in plant extensions and improvements; it will also provide that this Company must maintain $1,000,000.00 of cash or net quick assets over and above all indebtedness, therefore we are not making a bold venture but are proceeding along safe and conservative lines.

Should our stockholders authorize and approve the proposed bond issue it will place us in a position to immediately commence the payment of current dividends on the Preferred Stock July 1st next, and after the new improvements have been completed and are in operation we will then be in position to commence the payment of all accrued or accumulated dividends, and at the same time retire $200,000.00 of the bond issue each year, in fact, we believe that with our plant diversified and continuously operating we can pay off the entire bond issue in from three to five years' time by calling in the bonds at $102 and interest upon thirty days' notice. This means that without effort or additional investment on your part your stock will have paid full dividends since the time of your original investment, and will be worth from two to three times as much as it is now.

The logic of the situation is so clearly apparent we are certain you will be glad to give this plan your active and hearty support and to that end we earnestly request your presence at the meeting to be held at Decatur, Illinois, May 20th. Come and look over your present plant and see what a splendid property it is, you will be agreeably surprised and pleased with our accomplishments. However, should you be unable to personally attend the meeting, please sign the enclosed proxy and forward same in the self addressed envelope enclosed at your earliest convenience.

Yours very truly,

## HATS AND CAPS FOR SPRING, 1907:

We are ready with our spring line. Get ready to look at it. Our salesman will see you soon with the greatest combination of hat and cap values ever shown to the trade.

Everything that goes into the make up of hats and caps has been considerably advanced, but being ever watchful of the interests of our customers, we bought early and in large quantities, which puts us in a position to maintain old prices where othere will ask you for more money on same goods. A word to the wise is sufficient. Don't let the other fellow make you pay for his mistakes.

In addition to having all of this season's new shapes for men and boys wear, we desire to call your attention to a new feature: LADIES' CHIFFON HATS. We have arranged with the leading millinery house in the country who make these hats to sell them in North and South Carolina. The fact that they are the creation of experts guarantees their correctness in quality, shape and style. And only an expert can produce such hats at a minimum of cost, placing them within the reach of every dealer, and the cheapness in price makes the sale of them by you Mr. Merchant doubly sure. When you can couple quality and style to low prices, you have created a demand for any commodity that only needs to be supplied.

When you see these hats and get the prices you will wonder, and so did we, how they could be produced for the mere song asked. Every merchant should put in a line of them as undoubedly they will outsell anything you ever saw before in the shape of a hat.

We have had special trunks made to carry these hats, and as we have the exclusive sale of them you will not see them in any other line. Wait for our salesman and see the greatest hat selling proposition put before the trade this season.

Very respectfully,

WILLIAMS-PORTER HAT CO.
